Dawn Sargent Assumes the Role of Mortgage Originator at Reliant Community Credit Union

SODUS, N.Y., February 11, 2019 — Reliant Community Credit Union is pleased to announce that Dawn Sargent has assumed the role of Mortgage Originator for the credit union. Ms. Sargent has been a member of the Reliant team since 1995 and has served members in a variety of roles, most recently as Manager of the Webster branch.

As Mortgage Originator at Reliant, Ms. Sargent will meet with current and prospective members interested in our mortgage programs, and will work closely with them to evaluate their mortgage needs, explain our mortgage programs, and match their needs to Reliant's mortgage products. She will also help with pre-qualification, pre-approval, and preparation of mortgage applications for processing.

Dawn Sargent

Ms. Sargent has over 23 years of member service experience with Reliant, and during that time, she has had many opportunities to interact with members who were looking to become pre-qualified for mortgages, help them understand and learn about the mortgage process, and advise them on how to move forward so they could apply. Her experience working directly with Reliant's mortgage originators has allowed her to become familiar with the process and the mortgage programs available to Reliant members.

“Reliant is an organization that develops their employees and encourages them to reach their career and personal goals,” Ms. Sargent said. “I look forward to helping our members meet their own goals of home ownership.”

Ms. Sargent lives in Rochester, and is involved in many community organizations. She is the Board President of the Webster Chamber of Commerce; Treasurer of the Webster Health and Education Network, A Drug Free Community Coalition; Board Treasurer and past Board President of Blackfriars Theatre; and a member of the Greater Rochester Chamber of Commerce. Ms. Sargent is an active member of the Rochester arts community, performing in dozens of plays and musicals over the last 25 years.

Real Solutions. Real Value.
