Step 4:

Once you have access to your Visa through online banking, click on "Visa Credit Card Account" in the header again. A new menu will appear on the left-hand side of your screen. Hover over "Communications" in that menu and click on "Visa Transaction Alerts."

Step 5:

You'll be directed to a page that gives a brief description of the service.

Click "Submit" to be directed to the Visa Transaction Alerts website to sign up.

Receiving alerts about your Visa credit card keeps you informed and helps detect fraud within seconds. All the alerts are designed to help make you aware of purchases made without your authorization - then you can contact your financial institution to prevent additional fraud on your account. You'll choose the alerts you want to receive and where you want to receive them.

By clicking the Submit button below, you will be re-directed to the Visa Credit Card Transaction Alerts website where you can enroll and manage your transaction alerts service. Please keep in mind that information you provide on the Visa Alerts website is separate from the information you provide here on your financial institution's website.

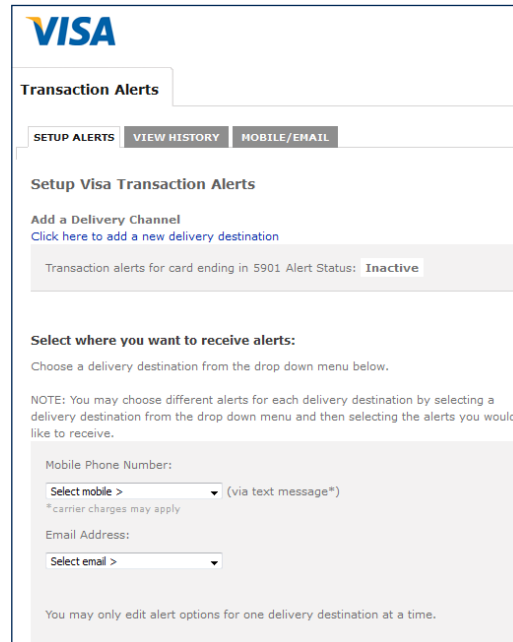

This service is for Visa credit cards only and you can only manage one card at a time on the Visa website. It is very important to keep your email and mobile phone number information current on the Visa website in order to receive alerts.

Click Submit above to visit the Visa Transaction Alerts website.

Step 6:

A new page or tab will open in your browser, where you can enter your mobile phone number or email address, depending on which way you would prefer to receive your alerts.

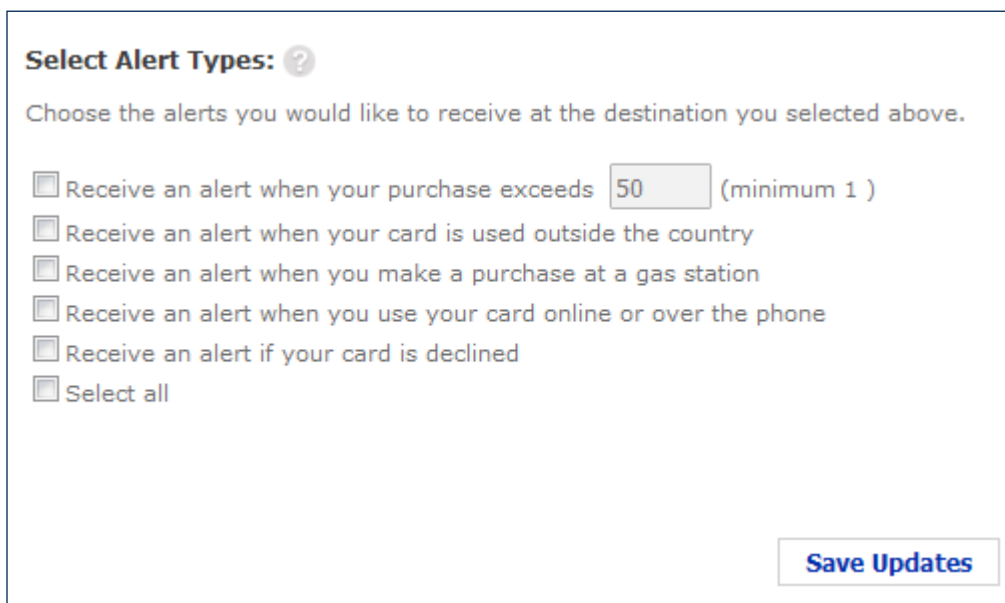

You will need to edit your alert options for each delivery destination (i.e. mobile phone and email) separately.

The screenshot shows the 'Transaction Alerts' page for a Visa card. It has tabs for 'SETUP ALERTS', 'VIEW HISTORY', and 'MOBILE/EMAIL'. The 'SETUP ALERTS' tab is active. The page title is 'Setup Visa Transaction Alerts'. Below the title, it says 'Add a Delivery Channel' and 'Click here to add a new delivery destination'. A status bar shows 'Transaction alerts for card ending in: 5901 Alert Status: Inactive'. Under the heading 'Select where you want to receive alerts:', it instructs to 'Choose a delivery destination from the drop down menu below.' A note states: 'NOTE: You may choose different alerts for each delivery destination by selecting a delivery destination from the drop down menu and then selecting the alerts you would like to receive.' There are two dropdown menus: 'Mobile Phone Number:' with 'Select mobile >' and '(via text message*)' and '*carrier charges may apply', and 'Email Address:' with 'Select email >'. A footer note says 'You may only edit alert options for one delivery destination at a time.'

Step 7:

Once you have selected one of the delivery destinations, additional options will appear, from which you can select the alerts you'd like to receive. Select one, or select them all! Then, simply hit the "Save Updates" button, and you're all set! You should begin to receive Visa Alerts immediately!

The screenshot shows the 'Select Alert Types' form. It has a title 'Select Alert Types: ?' and a subtitle 'Choose the alerts you would like to receive at the destination you selected above.' There are six checkboxes with corresponding text: 'Receive an alert when your purchase exceeds 50 (minimum 1)', 'Receive an alert when your card is used outside the country', 'Receive an alert when you make a purchase at a gas station', 'Receive an alert when you use your card online or over the phone', 'Receive an alert if your card is declined', and 'Select all'. A 'Save Updates' button is located at the bottom right of the form.
