Please Note: Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period. The Dividend Rate and Annual Percentage Yield are the prospective rates and yields that the credit union anticipates paying for the applicable dividend period, and they may change without notice as determined by Reliant's Board of Directors. Dividends will be calculated, compounded, and credited as set forth inside. The dividend period begins on the first calendar day of the period and ends on the last calendar day of the period. Dividends begin accruing on the effective date of deposit. Any account closed prior to the end of the dividend period will not receive dividends for that period, except for the Daily Money Account and Certificate Accounts, for which dividends will be paid up to the date of withdrawal.

All rates and fees are subject to change. Some fees are waived if you participate in a special Reliant program. Fees may reduce earnings. Your savings federally insured to at least \$250,000 and backed by the full faith and credit of the United States Government. National Credit Union Administration, a U.S. Government Agency. Membership eligibility required.

Reliant also offers Certificate accounts. Please ask for additional information.

Any account with a loan balance of at least \$100 at the close of business on that day will not be charged the monthly fee. The low balance fee does not apply to account owners under the age of 18 or to accounts open less than 3 months. The first \$5.00 deposited to the account represents your share of the credit union. To retain membership, the \$5.00 must remain on deposit.
